

## A CALL FOR POSTER AND PLATFORM PRESENTATIONS

### 2024 APTA INDIANA FALL CONFERENCE

University of Indianapolis Health Pavilion  
November 9, 2024

Are you interested in sharing knowledge, skills, and evidence with your colleagues?

This is an excellent opportunity for PTs, PTAs, residents, and students to share practice outcomes through a poster or platform presentation at the 2024 APTA Indiana Fall Conference!

#### *What is the difference between a poster presentation and a platform presentation?*

##### **Poster Presentations – 1:00 – 2:00 pm ET**

Posters are visual presentations available for viewing during a designated period of time. During this hour, conference attendees are invited to visit the posters, meet the authors, and ask questions about the poster. Featured topics can include research, special interest case reports, case studies, or theory reports. Additional details will be provided to those accepted prior to the Fall Conference.

##### **Platform Presentations – 3:45 – 4:45 pm ET**

Not ready to present a full educational session, but looking for a little more than a poster? A platform session might be for you! Platform presentations are oral presentations of approximately 10-15 minutes, typically given by one individual. Platform presentations are best described as “mini” educational sessions and generally highlight “up and coming” research and special interest reports, such as implementation projects and quality improvement initiatives. Did you have a patient with a unique presentation or did you get an interesting outcome? Case reports can also be presented as a platform presentation. Time will be allotted at the end of each platform session for questions. Additional details will be provided to those accepted prior to the Fall Conference.

APTA Indiana Members who are registered for the Fall Conference will have no additional cost for platform or poster presentations. For non-members, or members not registered for the Fall Conference, there will be a \$25 charge for admittance into the Exhibit Hall and will also include lunch.

Abstracts must be submitted to [info@inapta.org](mailto:info@inapta.org) **before 12:00 pm ET on July 31, 2024**. A panel will review each abstract in the order received. Notification of acceptance or denial will be given by August 15, 2024.

There is a 3,125-character limit for the text of your abstract submission which includes spaces, but not authors or institutions. Please indicate if you are submitting as a poster presentation, a platform presentation or either. The abstract should be double-spaced, use size 10-12 font, and contain the following based on the type of submission:

Research Study	Special Interest Report	Case Study	Theory Report
Title	Title	Title	Title
Purpose/Hypothesis	Purpose	Background/Purpose	Theory/Body
Number of Subjects	Description	Case Description	Keywords
Materials/Methods	Summary of Use	Outcomes	
Results	Importance to Members	Discussion	
Conclusions	Keywords	Keywords	
Clinical Relevance			
Keywords			

- Keywords: Up to 3
- Abstracts also require presenter/author information including credentials, city, and state.

Any questions or concerns regarding your submission should be directed to [info@inapta.org](mailto:info@inapta.org).
